BRUSHING/SUEDING MACHINES EST 6.2

FOR KNITS & WOVEN

ADVANTAGES:

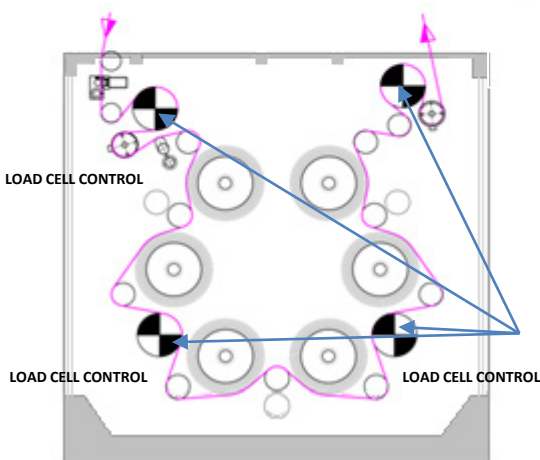

- ❑ Use upto **6+2** combinations of sueding rollers and brushes;
- ❑ Additional 2 brushes or 2 sueding rollers can be installed as optional for a total of 8 rollers.
- ❑ Easily replacing brush/sueding roller;
- ❑ Front and back side in one pass;
- ❑ Big diameter brushes, High density;
- ❑ Individual sueding/brushes motor;
- ❑ Adjustable approaching distance between brush and fabric;
- ❑ Bigger contacts area on brushes;
- ❑ New design with shortest distance in fabric's pass inside and outside of the machine;
- ❑ New air suction design system giving an excellent performances;
- ❑ For knits: new design with 4 draft rollers for best tension control;
- ❑ Carbon/Ceramic brush & Diamond/Emery suede on same machine.

6+2 = 8 ROLLERS

with 2 (two) additional brushes or sueding rollers for best woven quality and productivity

----- **BACK SIDE PASS**

with 4 (four) draft rollers for best knits tension control.

TABLE WIDTH	FROM 2000 TO 3600mm
WORKING WIDTH	FROM 1800 TO 3400mm
MACHINE SPEED	40mt/min
INSTALLED POWER	FROM 23 TO 52 KW

SUEDING MACHINES EST 8.1

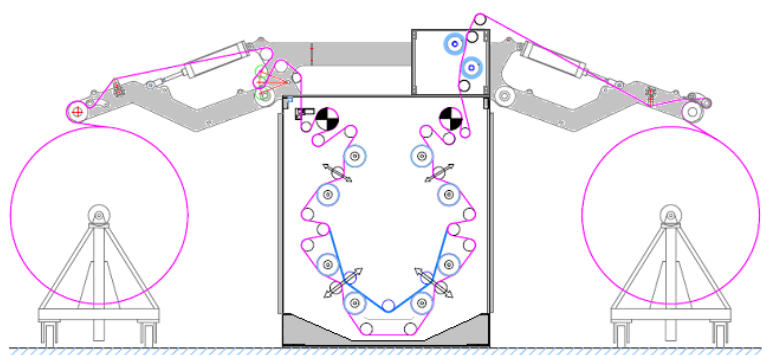

EMERY FOR WOVEN

ADVANTAGES:

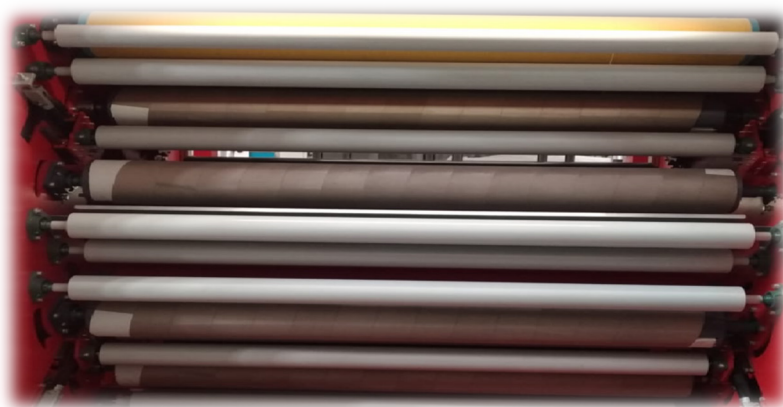

- ❑ 8 sueding rollers with individual AC motor;
 - (Optional)
 - Oscillating sueding rollers
 - ZIG-ZAG SYSTEM;**
- ❑ Front and back side in one pass
- 4+4 SYSTEM;**
- ❑ 4 individual approaching rollers with adjustable distance between sueding roller and fabric;
- ❑ New design with shortest distance on fabric's pass inside and outside of the machine;
- ❑ New air suction design system giving excellent performance;
- ❑ Diamond/Emery-suede and Carbon/Ceramic brush it can be done on same machine;

SMART

8 ROLLERS

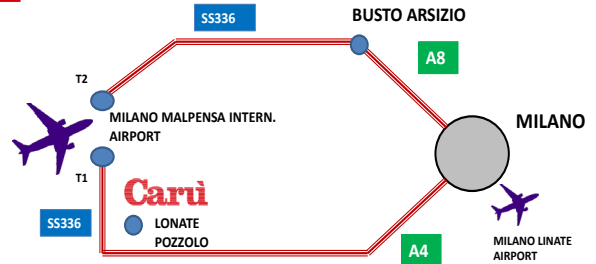

The exposed features are indicative and could be changed at any time.

TABLE WIDTH	FROM 2000 TO 3600mm
WORKING WIDTH	FROM 1800 TO 3400mm
MACHINE SPEED	50mt/min Option: 50 mt/ min
INSTALLED POWER	FROM 23 TO 52 KW
